talks have commented most favorably regarding the high-quality support they have received from the Agency. Typical of these is a recent note of appreciation from Jan Lodol, Director of Program Analysis, National Security Council Staff, for the splendid work in which you participated in preparing Secretary Kissinger for his recent round of SALT discussions in Moscow, and the subsequent analysis of the complicated issues that grew out of these discussions.

2. I want to add my own personal commendation for the role you have played in producing consistently high-quality work, often under the most trying conditions. You can take considerable satisfaction from the fact that the work you do is among the most important accomplished in Washington today. I consider this the personification of the word "professionalism."

MEMORANDUM FOR: (see distribution attached)

SUBJECT : Commendation

1. During the past several months a number of officials involved in the Strategic Arms Limitation Talks have commented most favorably regarding the high-quality support they have received from the Agency. Typical of these is a recent note of appreciation from Jan Lodal, Director of Program Analysis, National Security Council Staff, for the splendid work in which you participated in preparing Secretary Kissinger for his recent round of SALT discussions in Moscow, and the subsequent analysis of the complicated issues that grew out of these discussions.

2. I want to add my own personal commendation for the role you have played in producing consistently high-quality work, often under the most trying conditions. You can take considerable satisfaction from the fact that the work you do is among the most important accomplished in Washington today. I consider this the personification of the word "professionalism."
